Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Applicants' arguments, filed 29 December 2006, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 1-4, 6-25, 32-43 are currently pending. Claims 5 and 26-31 have been cancelled. Claims 1 and 32 are allowable. Claims 12-17 and 22-25, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among species of claims 12-17 and 22-25, as set forth in the Office action mailed on 22 September 2003, is hereby withdrawn** and claims 12-17 and 22-25 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1631

Claims 2, 3, 4, 9, 11-15, 17, 18, 22, 25, 33, 34, and 36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites, "profile to identify the one or more analytes". It is unclear what analytes are intended. Are they the analytes possessing pharmacological activity or some other analyte? Clarification through clearer claim language is requested.

Claims 3 and 33 recite, "identification comprises classifying all the expression profiles". It is unclear as to what the steps of identification are limiting". Is this the identification of analytes possessing pharmacological activity? Clarification is requested.

Claims 4, 9, 11, 15, 17, 18, 22, 25, 34, and 36 recite, "wherein any of the steps used to perform at least one of the assays comprises". This is unclear, as there are no steps recited in which to perform assays. Perhaps applicant intends that claims to read, "wherein any of the assays are performed using". Clarification is requested.

Conclusion

Claims 1, 6, 7, 8, 10, 16, 19, 20, 21, 23, 24, 32, 35, and 37-43 are allowable. Claims 1 and 32 are allowable, as the prior art does not teach or fairly suggest comparing a third expression profile with a first and second expression profile to identify analytes that induce the third expression profile that is more similar to the first than the second expression profile and wherein the analytes identified as inducing the third expression profile are indicative of the those possessing pharmacological activity.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
